

29 August 2018

Newcastle Light Rail

## Night work Wednesday 29 and Thursday 30 August

**The NSW Government has invested more than \$650 million through the Revitalising Newcastle program to transform Newcastle's city centre.**

Light rail is an important part of the Revitalising Newcastle program and will deliver frequent and reliable connections to key activity precincts in the city centre. Downer is building light rail on behalf of Transport for NSW.

To ensure work is completed as quickly as possible, **night work will take place on Scott Street between Newcomen and Bolton streets** (zone 8) in addition to standard construction hours. Work will include steel fixing and laying light rail track.

### **When will work take place?**

We will be working between **6pm** and **7am** on **Wednesday 29 August** and **Thursday 30 August 2018**, weather permitting.

Work in the area will continue during the day between 7am and 6pm Mondays to Fridays and between 8am and 6pm on Saturdays, weather permitting.

### **Traffic and pedestrian changes**

Work will be carried out within the existing construction zone. No additional pedestrian or traffic controls are required.

### **What equipment will be used?**

Equipment will include, but is not limited to, excavators, trucks, fork lifts, temporary lighting, generators, light vehicles, power tools and hand tools.

### **What to expect during construction**

There may be some noise associated with this work. We understand our work may be disruptive and we apologise for the inconvenience. We aim to minimise the impact of our work by:

- › Turning off equipment when not in use
- › Using non-tonal reversing beepers on all machinery (excluding delivery vehicles)
- › Positioning noisy equipment as far away as possible from residents and businesses

**Thank you for your patience during this important work**
