Newcastle Light Rail

Update on Scott Street traffic changes

The NSW Government has invested more than \$650 million through the Revitalising Newcastle program to transform Newcastle's city centre.

Light rail is an important part of the Revitalising Newcastle program and will deliver frequent and reliable connections to key activity precincts in the city centre. Downer is building light rail on behalf of Transport for NSW.

As previously notified, we are laying new road surface on Scott Street between Perkins and Telford streets. Work includes laying new road surface, concreting, installation of new kerbs, street lighting and traffic signals, line marking and other finishing work.

We will also be working on Hunter and Scott streets, between Crown and Pacific streets (zones 6 to 10), on Sunday 9 and 16 September 2018. Additional work to be carried out during this time includes line marking and paving. No additional traffic changes are required for this work.

When will work take place?

Work will be carried out between **8am and 6pm on Sunday 9 and 16 September 2018**, weather permitting.

Work in the area will continue between 7am and 6pm Monday to Friday and between 8am and 6pm on Saturdays.

Please see table overleaf for updated details on work locations, dates and times.

What equipment will be used?

Equipment will include, but is not limited to, excavators, concrete pumps and trucks, rock and concrete hammers, cranes, road saws, road sweepers, line marking equipment, water carts, compactors, fork lifts, temporary lighting, generators, trucks, light vehicles, power and hand tools.

How will the work affect you?

There may be some noise and vibration associated with this work. We understand our work may be disruptive and we apologise for the inconvenience. We aim to minimise the impact of our work by:

- › turning machinery off when not in use
- › using acoustic barriers where suitable
- › using non-tonal reversing beepers on all machinery
- › minimising the number of machines and equipment operating at any one time
- › monitoring vibration during construction.

For more information call **1800 684 490**, email projects@transport.nsw.gov.au or visit revitalisingnewcastle.nsw.gov.au

For urgent enquiries or complaints about construction activities, call our **24-hour construction response line** on **1800 775 465**

Location	Date	Traffic changes
