

22 October 2018

## Traffic changes from Thursday 25 October

### The NSW Government making it easier to get around the city centre by delivering important road upgrades, new connections and better intersections.

Transport for NSW has engaged Downer to carry out the work.

Work on the north-eastern corner of the intersection of King and Steel streets will be carried out **from Thursday 25 October**. Work will include excavation, removal of traffic islands, drainage work, laying new road surface and adjustments to traffic signals.

To ensure work can be carried out safely, the southbound lane on Steel Street between Hunter and King streets will be restricted to local traffic only.

#### When will work take place?

Work will be carried out between **7am and 6pm Monday to Friday** and **8am to 6pm Saturday** for **about three weeks**, weather permitting.

#### Traffic changes

To ensure work can be carried out safely, the southbound lane on Steel Street between Hunter and King streets will be restricted to local traffic only and two parking spaces on the eastern side of Steel Street will be permanently removed.

Southbound buses will be diverted via Union Street during this time. A temporary bus stop will also be established on the western side of Steel Street between Hunter and King streets for northbound buses.

Access to businesses and residences, including driveways, will be maintained at all times.

#### Pedestrian changes

The pedestrian crossing across King Street on the western side of the intersection will be temporarily closed during this work.

The King Street crossing on the eastern side of the intersection will be open and a temporary pedestrian diversion across Steel Street will be in place during this time.

#### What equipment will be used?

Equipment will include, but is not limited to, excavators, vacuum trucks, road profilers, rock and concrete hammers, rollers, compactors, road sweepers, concrete and road saws, concrete pumps and

trucks, asphalt pavers, elevated work platforms, trucks, light vehicles, line marking equipment, power and hand tools.

### How will the work affect you?

There may be some noise associated with this work. We understand our work may be disruptive and we apologise for the inconvenience. We aim to minimise the impact of our work by:

- › turning machinery off when not in use
- › using non-tonal reversing beepers on all machinery
- › minimising the number of machines and equipment operating at any one time.

**Thank you for your patience during this important work.**
