Newcastle Light Rail

Substation delivery at Argyle Street on 3 July 2018

The NSW Government is investing more than \$650 million through the Revitalising Newcastle program to transform Newcastle's city centre.

Light rail is an important part of the Revitalising Newcastle program and will deliver frequent and reliable connections to key activity precincts in the city centre. Downer is building light rail on behalf of Transport for NSW.

An electrical substation will be delivered to Argyle Street on **Tuesday 3 July 2018** between **1am** and **6am**. Due to the size of the 15-metre long substation, it will be delivered by semi-trailer under a police escort.

When will delivery take place?

The substation will be transported via Industrial Drive, Hannell Street, Honeysuckle Drive, Workshop Way, Wharf Road and Argyle Street on **Tuesday 3 July 2018** between **1am** and **6am**.

A 250-tonne crane will be used to lift the substation into place from 7am Tuesday 3 July.

Traffic and pedestrian changes

On-street parking on the **northern side of Honeysuckle Drive and a loading zone on Workshop Way will be temporarily removed** to ensure the substation can be delivered safely. A small section of parking on the **southern side of Wharf Road near Merewether Street will also be temporarily removed**.

We will begin temporarily closing these parking spaces from **3pm Monday 2 July**. All vehicles parked in these areas will need to be out of the spaces before 8pm Monday 2 July. **All parking will be restored before 6am Tuesday 3 July 2018.**

Traffic control will be in place on Honeysuckle Drive, Merewether Street, Wharf Road and Argyle Street for the delivery of the substation.

What equipment will be used?

Equipment will include, but is not limited to, a crane, trucks, generators, temporary lighting and light vehicles.

How will the work affect you?

The substation will be delivered at night by semi-trailer under a police escort. During this time, you may see flashing lights from police escort vehicles. There may also be some noise associated with the delivery.

Thank you for your patience during this important work.
