

14 November 2018

## Night work on Wednesday 21 November

### The NSW Government making it easier to get around the city centre by delivering important road upgrades, new connections and better intersections.

Transport for NSW has engaged Downer to carry out the work.

The new road connection on Steel Street between Honeysuckle Drive and Hunter Street opened to traffic in August. Finishing work is required at the intersection of Hunter and Steel streets to replace a temporary traffic signal post with a permanent post on **Wednesday 21 November 2018**.

#### When will work take place?

To help minimise traffic disruptions, work will be carried out at night between **6pm Wednesday 21 November** and **7am Thursday 22 November**, weather permitting.

Preparation work will be carried out during standard construction hours between 7am and 6pm Monday to Friday and between 8am and 6pm Saturdays.

#### Traffic and pedestrian changes

Temporary traffic and pedestrian controls will be in place as required. Access to businesses and residences will be maintained at all times.

#### What equipment will be used?

Equipment will include, but is not limited to, trucks, cranes, elevated work platforms, line marking equipment, light vehicles, power tools and hand-held tools.

#### How will the work affect you?

There may be some noise associated with this work. We understand our work may be disruptive and we apologise for the inconvenience. We aim to minimise the impact of our work by:

- › turning machinery off when not in use
- › using non-tonal reversing beepers on all machinery
- › minimising the number of machines and equipment operating at any one time
- › monitoring noise during construction.

**Thank you for your patience during this important work**
